# APPLICATOR CONVERSION

Small Plunger

Our current applicators are set up with a 1:1 ratio (Two Large Plungers).

To convert the applicator from 1:1 to 2:1, please follow the steps below.

For 2:1 application use 1 large plunger and 1 small plunger.

Step 1:   Using an Allen key move the drive rod to the additional whole (Allen Key Provided).

Step 2:   Replace the large plunger with a small plunger (Small Plunger Provided).
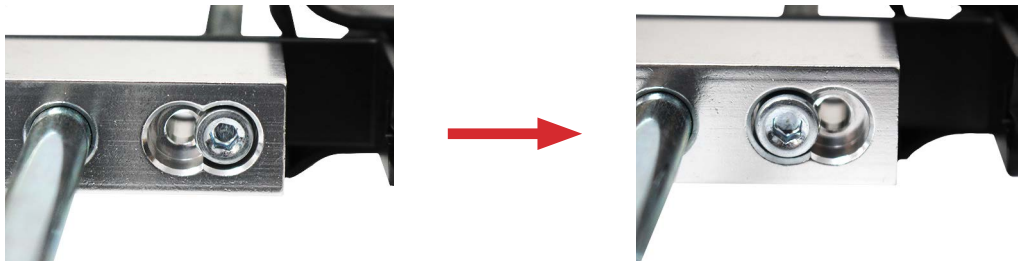

1:1   2:1

Step 1
